

Theresa started her career in the field of Library Science both in Virginia and then West Virginia. After losing her home in the 2001 flood an opportunity for volunteer recovery work opened in Fayette County. Theresa was hired in February 2002 and moved through the ranks of Hazard Mitigation Officer, Planner and eventually Director of Fayette County Emergency Management until taking the Liaison Position with WV EMD in 2015. Personally, Theresa is in love with the Pepsi man, Mike and loves Jesus. She teaches 6–10-year-olds Sunday School and leads the church Choir. Theresa also loves to crochet as her stress relief. She can be quite an extrovert at times but enjoys life to the fullest.
